Profile Summary

As a freshly graduated BE engineer with specialized training in UI/UX design and Full Stack Web Development, I am eager to apply my technical and creative skills to deliver user-centered solutions. My experience with design tools like Figma, along with proficiency in web technologies such as HTML, CSS, JavaScript, React, and Node.js, enables me to build intuitive and responsive digital experiences. I have a solid understanding of design principles, user research, and front-end development. I am seeking a junior UI/UX design role where I can grow and contribute to impactful projects through both design and development.

Education

Bachelor of Engineering in Computer Science
Francis Xavier Engineering College | Tirunelveli | Tamil Nadu | June 2020 - April 2024

UX/UI Design Certification
Space Zee Technologies | Chennai | Tamil Nadu | June 2024 - August 2024

Full Stack Web Development Course
Space Zee Technologies | Chennai | Tamil Nadu | February 2025 - March 2025

Experience

Freelance UI/UX Designer | Marantrix | Remote 2024

Designed responsive mobile apps and websites, delivering user-friendly and visually appealing designs aligned with client goals. Responsibilities included user research, wireframing, prototyping, and visual branding using tools like Figma

Website: Marantrix

Skills

- **Design tools:** Figma, Adobe XD
- **Coding language:** Full Stack Web Development (HTML, CSS, JavaScript, React, Node.js, SQL)
- **Website Development:** Basic understanding WordPress
- **Responsive Design Project:** Designed mobile-first and responsive apps for cross-device compatibility.
- **User Research and Testing:** Conducted interviews, surveys, and usability tests using tools like Google Forms.
- **Project Contribution:** Worked with cross-functional teams to create design solutions, handling everything from user research to final prototyping.
- **Soft Skills:** Communication, Team Collaboration, Problem-Solving, Time Management

Projects

Hotel Booking Website - Wavacation.com

Developed a fully functional hotel booking website with features like user-friendly navigation, property search, real-time availability, and secure booking options, ensuring a seamless user experience.

Tools: WordPress

Outcome: Enhanced customer convenience, streamlined booking processes, and increased property visibility.

Tyer App – Automotive Service & Product Platform

Designed a sleek and engaging automotive marketplace app that enables users to explore, favorite, and book car-related services and products. Created the complete UI design system, user flow, and custom logo for brand identity.

Tools: Figma (UI/UX Design & Logo Design)

Outcome: Delivered a cohesive digital experience combining aesthetics, usability, and brand identity for automotive users.

Cloud Kitchen - Multi-Restaurant Food Delivery App

Developed a multi-restaurant food delivery app with features like user onboarding, vendor management, order tracking, and real-time updates, enhancing operational efficiency and user satisfaction.

Tools: Figma

Outcome: Streamlined operations, improved user engagement, and optimized vendor management.
